

A Special Issue on

“Flexible and Wearable Sensors for Robotics and Health”

CALL FOR PAPERS

Flexible and wearable sensors that can acquire signals of pressure, temperature, optical input, chemical environment as well as human body physiological and biological parameters, are of critical importance for robotics and health, in which these sensors are hence in urgent demands. On the fundamental side, there are still substantial challenges on how to design and fabricate materials with biocompatibility, robustness and excellent mechanical flexibility, as well as sensor devices with high performance, low power consumption and good system integration capability. Meanwhile in practical applications, there are also obstacles on integration of various kinds of sensors with flexible substrates, signal processing and power supply units. With the fast development of Internet of Things (IoT), smart sensors will also be interconnected to form sensor networks that provide big data for our future intelligent living. All these would deliver a profound socio-economic impact to our society.

This special issue is aiming at reviewing recent advance in all topics related to flexible and wearable

GUEST EDITORS

Prof. Zhiyong Fan, Hong Kong University of Science and Technology, Hong Kong SAR, China.

Group website: <http://www.ece.ust.hk/~eezfan/>

E-mail: eezfan@ust.hk

Prof. Johnny C. Ho, City University of Hong Kong, Hong Kong SAR, China.

Group website: <http://www.HOCityU.com>

E-mail: johnnyho@cityu.edu.hk

Prof. Chuan Wang, Washington University in St. Louis, MO 63130, USA.

Group website: <https://wanggroup.wustl.edu/chuan-wang/>

E-mail: chuanwang@wustl.edu

Prof. Yunze Long, Qingdao University, Qingdao 266071, China.

E-mail: yunze.long@qdu.edu.cn

Manuscript Submission:

Manuscripts must be prepared according to Journal's guidelines, available at <http://iopscience.iop.org/journal/1674-4926>.

Submit your manuscripts directly to the listing guest editors via the e-mail addresses above. Or directly submit via the online submission address at <https://mc03.manuscriptcentral.com/jos-iop>

Please notify well in advance for your intention to submit a research paper.

Key timetable dates:

Manuscript due: **June 31, 2019**

Authors' notification: **July 31, 2019**

Publication date: **September 31, 2019**

Mobile Terminal
