

Journal of Semiconductors

(<http://iopscience.iop.org/journal/1674-4926>)

A Special Issue on

2D materials related physical properties and optoelectronic devices

Since the first discovery of graphene on 2004, ultrathin two-dimensional (2D)

The issue attempts to provide a latest overview of the rapid developing research area of 2D materials. We sincerely hope that this issue on 2D materials can benefit researches on this topic.
